

NYSVMS Covid 19 Member Resources

Safer, Stronger Together

New York State Veterinary Medical Society

How y'all doing?

Last week we ran a survey to see how members were coping with the crisis. We decided to run it again to see how the situation has changed.

If you have a moment please take our [NY State Veterinary Status survey](#).

NYSVMS launches restructured Covid support site

When we started creating a Covid19 support site for members 10 days ago we had just a few links to put up. As the situation evolved the site needed to be restructured so that you could find all the information.

Please visit our new Covid Mini-site and let us know how we can improve it
Email [Tim Atkinson](#) or call 518 859 7888

Don't miss tonight's webinar

Tonight at 7pm we will hear from Dr David Bessler, Chair of NYSVMS Covid Emergency Response TF, on how you can setup or participate in a collaborative model that keeps teams safer, and makes more effective use of well people who are home on quarantine.

Learn how you could replicate the model, or join it as a Reserve Veterinarian.

Register for webinar 7:00 pm 3/25

What's coming next:

We are working on a webinar on financial and business issues to help you through any gaps in cash flow. That work will provide more resources on our financial page in the [new resource site](#).

We are also seeking an HR partner who is available to help guide members through the complexities of the new laws, although our [resource site](#) could be a good place to start.

Let us know what else you need.

The Governor is asking us to find more Ventilators

We have been asked to gather the availability of ventilators among our member hospitals. We expect that one the specialist hospitals had them, and have heard that many of them we already contributed to Covid19 recovery centers.

However,I am going to be doing some calling around, If you want to make my life easier, just drop me an email saying how many your ventilators you lent already, and if there are any more available,
